

PERSONAL INFORMATION

WORK EXPERIENCE

- 2016 – 2023** **Innovation Center of the Faculty of Mechanical Engineering in Belgrade, University of Belgrade, Serbia**
Research Fellow elected by the Ministry of Science, Technological Development and Innovation of the Republic of Serbia, decision no 119-01-00023/2023-01-3
- 2021 – 2023** **Research Associate for Project of cooperation between the Technical University of Delft in Netherland and Innovation Centre of the Faculty of Mechanical Engineering (IC FME), Belgrade, Serbia**
Artificial Intelligence and Nature Inspired Optimization in the Function of Sustainable Water Management (AINIOF-SWM)
- 2015 – 2020** **Management Committee - Substitute**
European Project for Cooperation in Science and Technology
Improving Applicability of Nature-Inspired Optimisation by Joining Theory and Practice (ImAppNIO)
<https://www.cost.eu/actions/CA15140/>
Working Group – Overcoming the gap between theory and practice (WG 2)
Official language - English
- 2014 – 2019** **Management Committee - Substitute**
European Project for Cooperation in Science and Technology
Renewable Energy and Landscape Quality (<http://cost-rely.eu/>)
Working Group - Strategic Case Studies on Landscape Management/Potentials in terms of RE (WG2)
Official language - English
- 2015 – 2016** **Teaching Assistant**
Integrated University Union Nikola Tesla, Department for Ecology and Environmental Management, Belgrade, Serbia
 - Teaching Assistant for 7 groups of 25 students each
 - Education in the field of Management, Sustainable Development, Energy and Environment
- 2011 – 2013** **Product manager at Delta Generali Insurance Company**
28 realized life insurance contracts in Delta Generali, Serbia, www.deltageneralis.com
- 2010 – 2023** **Manager and Head Instructor in Ecology Water Sports Tourist's Resorts**
part time
 - Kite surf and windsurf education in tourist's ecology sports resorts in Montenegro (Ada Bojana), Greece (Lefkada, Rodos, Limnos), Brazil (Jericocoara, Icharaizinho, Rio de Janeiro), USA, Portugal, Spain
 - Leadership (responsible for a team of 4-7 instructors and 50+ students per seminar)
 - Management
 - Education
 - Profitability of solar and wind energy application
 - Seminars on official languages – English, Portuguese, French.

EDUCATION AND TRAINING

2011 - 2015 **BSc (Econ), Bachelor of Science in Economics**

Faculty of Business Economics, University Singidunum, Belgrade, Serbia
Program: Marketing and trading

Thesis "Green marketing in the function of sustainable development and increasing of solar power production" – thesis evaluated with note 10 of 10

- Management
- Marketing and Trading
- Business economy
- Green marketing

2015 – 2016 **MSc degree (Management)**

Faculty of Organizational Science, University of Belgrade, Belgrade, Serbia
Program: Management

Thesis "Solar energy exploitation possibilities in the function of sustainable development of ecological camp" – thesis evaluated with note 10 of 10

- Management

2016 – 2022 **PhD degree (Management and Business)**

Faculty of Organizational Science, University of Belgrade, Belgrade, Serbia
Program: Management and Business

Modul: Interdisciplinary research in management

Thesis title "Interdisciplinary models of strategic integration of renewable energy sources", thesis evaluated with note 10 of 10.

- Management and Business

PERSONAL SKILLS

Mother tongue(s) Serbian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C1	C1	C1	C1	B2
French	B1	B1	B1	B1	B1
Portuguese	B1	B1	B1	B1	A2

Levels: A1/2: Basic user - B1/2: Independent user - C1/2 Proficient user

Common European Framework of Reference for Languages
Certificate

Communication skills

- Good management and communication skills gained through the experience on European Project for Cooperation in Science and Technology, as Teaching Assistant and Research Assistant at University and as Head Instructor and Manager of Kite surf and windsurf education and ecology tourist resorts, in Montenegro, Greece, Portugal, Spain, France and Brazil
- High social intelligence,
- Leadership ability, Responsible, Creative.

Job-related skills

Good command of quality control processes (responsible for quality audit and the equipment in Kite surf and windsurf education and ecology tourist resorts)

Computer skills

Good command of Microsoft Office™ tools, Internet, PP, Excel.

Other skills

- Kite international licensed instructor, licence no IKO 43563
- Windsurf, 2004: 6th place at the international competition in windsurfing, Ada Bojana, Montenegro
- Skiing, 2001 – 2008: 35 gold, 17 silver and 5 bronze medals at international, state, and national ski competitions in slalom and giant slalom, in Europe and all over the world (including World Competition Topolino-Italy)

Driving licence

- Car – B,
- Licence for Boat

Public appearances

- TV,
- Journals,
- Scientific International Conferences

ADDITIONAL INFORMATION

Memberships

- Candidate academician, Youth Section of the Serbian Royal Academy of Sciences and Innovation
- Member of the Association "Environmental and Cultural Vision"

Humanitarian and volunteers activities

- Lecturer on 18. Sports and Humanitarian "Sports Fairytale", June 2016.
- Help children with cancer (organized by NURDOR and the International Red Cross)
- Ecological action "Clean Serbia"
- Action of collecting materials for reuse

SCIENTIFIC RESULTS OF DR IVAN STEVOVIC

**KVALITATIVNA OCENA NAUČNOG I PEDAGOŠKOG DOPRINOSA DR IVANA STEVOVIĆA
QUALITATIVE ASSESSMENT OF THE SCIENTIFIC AND PEDAGOGICAL CONTRIBUTION OF DR IVAN STEVOVIĆ**

1. Pokazatelji uspeha u naučnom radu**1.1 Članstva u odborima međunarodnih naučnih konferencija, odborima naučnih društava i profesionalnim udruženjima:**

- Ivan Stevović je član Organizacionog odbora Međunarodne naučne konferencije o turizmu, 23–25. jun 2017., podnaslov konferencije „Održivi turizam - put ka uspehu“ u Vrnjačkoj Banji.
- **Ivan Stevović je član naučnog odbora 2nd International Conference „Conference on Advances in Science and Technology“, COAST , 31. may- 03. June 2023. Herceg Novi, Montenegro.**
- **Član sekcije mladih Srpske kraljevske akademije inovacionih nauka**
- **Član udruženja „Ekološka vizija“**

1.2 Uređivanje i članstva u uredivačkim odborima naučnih časopisa i monografija

- **Ivan Stevović je Section Editor časopisa „Global sustainability challenges“, Journal abbreviation: Gl. Sust. Chall.**
- **Ivan Stevović je urednik Zbornika radova 2nd International Conference „Conference on Advances in Science and Technology“, COAST , 31. may- 03. June 2023. Herceg Novi, Montenegro.**

2. Angažovanost u razvoju uslova za naučni rad, obrazovanju i formiranju naučnih kadrova**2.1 Doprinos razvoju nauke u zemlji**

Razradom novih i unapređenjem postojećih metoda i modela za integraciju OIE, kandidat je naučnoj javnosti ponudio novu metodologiju za određivanje optimalnog kapaciteta za integraciju OIE u društveno ekonomski i elektro energetski sistem, kao podršku donosiocima odluka u okviru strateškog menadžmenta.

2.2 Pedagoški rad

Ivan S. Stevović je od 2015-e godine za vreme master akademskih studija radio kao saradnik u nastavi na Univerzitetu Union Nikola Tesla, na Fakultetu za ekologiju i zaštitu životne sredine, na Arhitektonskom i na Građevinskom fakultetu.

Bio je angažovan na predmetima:

- Inženjerstvo zaštite životne sredine;
- Ekologija i građena sredina.
- Ocena i upravljanje resursima;

➤ Obnovljivi izvori energije;

Dr Ivan Stevović je bio član komisija za odbranu diplomskih i specijalističkih radova, master teza i doktorskih disertacija. Na bazi dosadašeg se zaključuje da dr Ivan Stevović ima proverene pedagoške sposobnosti, sposobljenost za savremenu organizaciju obrazovnog rada i uspešnost u realizaciji predavanja, vežbi, seminara, konsultacija i ispita.

2.3 Međunarodna saradnja

Dr Ivan Stevović je radio i kao "management committee substitute" – zamenik člana upravnog odbora EU za saradnju u nauci i tehnologiji na sledećim projektima:

1. CA15140 –WG2: Improving Applicability of Nature-Inspired Optimisation by Joining Theory and Practice, Working Group 2 (Theory-Driven Applications). [http://www.cost.eu/about_cost/who/\(type\)/5/\(wid\)/52691](http://www.cost.eu/about_cost/who/(type)/5/(wid)/52691); <http://www.fm-hn.com/>) (ImAppNIO);
2. TU1401 - Transport And Urban Development, Renewable energy and landscape quality (RELY), <https://e-services.cost.eu/action/TU1401>
3. Trenutno dr Ivan S. Stevović je angažovan na projektu saradnje sa dijasporom, finansiranim od strane Fonda za nauku Republike Srbije, pod nazivom: Artificial Intelligence and Nature Inspired Optimization in the Function of Sustainable Water Management.

2.4 Organizacija naučnih skupova

Ivan Stevović je bio co-chair sekciјe "Green economy and better governance 2" na međunarodnoj konferenciji pod nazivom 16th SDEWES Conference on Sustainable Development of Energy, Water and Environment Systems, October 10 - 15, 2021. Dubrovnik, Croatia

3. Organizacija naučnog rada

Rukovođenje projektima i podprojektima: dr Ivan S. Stevović je bio učesnik na naučno istraživačkom projektu tehnološkog razvoja, rukovođenom od strane Mašinskog fakulteta Univerziteta u Beogradu, podprojekat br TR35030/3: „Razvoj i primena metodoloških i softverskih korelacionih modela tehničkih sistema i životne sredine“. Projekat je finansiralo Ministarstvo prosvete, nauke i tehnološkog razvoja, kao i na naučno istraživačkom projektu EE18031: "Povećanje energetske efikasnosti u funkciji održivog razvoja".

Dr Ivan Stevović je bio na tri studijsko-istraživačka putovanja na Tehničkom univerzitetu u Delftu, kao učesnik na projektu saradnje sa dijasporom, finansiranom od strane Fonda za nauku Republike Srbije, gde je pokazao visok stepen samostalnosti i sposobnosti za organizaciju naučnog rada, kako u periodu izrade projekta u zemlji, tako i u Holandiji, sa inostranim kolegama.

Dr Ivan Stevović je recenzovao brojne radove sa SCI i ESCI liste.

4. Kvalitet naučnih rezultata

4.1. Uže oblasti istraživanja

Naučno istraživačka delatnost dr Ivana Stevovića je u oblasti **menadžmenta i biznisa**, a generalno se kretala u okviru sledećih užih oblasti istraživanja:

4.1.1. Cirkularna ekonomija i osavremenjene tehnologische analize u kontekstu održivog menadžmenta. Značajan doprinos kvalitetu naučnih rezultata u ovoj oblasti, kandidat daje proširenjem višekriterijumskih analiza i uvođenjem novih metoda numeričke kvantifikacije u strateške projekte i analize cirkularne ekonomije. U radovima pod rednim brojem 1 i 11 u bibliografiji, kandidat unapređuje standardne tehnologische analize višekriterijumskim pristupom, sa ciljem poboljšanja upravljanja resursima. Teorijske postavke kandidat proverava na studiji slučaja problema tehnologische opravdanosti izgradnje novog industrijskog postrojenja Đerdap III, čime dokazuje njegovu isplativost iz ugla održivog menadžmenta resursima. U radu broj 31 dr Ivan Stevović uvedi metode numeričkog kvantifikatora u menadžment strateških projekata i analiza. Time kandidat realizuje nove rezultate u domenu kvantifikovanja lingvističkih ulaznih varijabli, kao što su uticaji na životnu sredinu i pitanje održivosti, u kontekstu cirkularne ekonomije. U radu broj 8 kandidat numerički kvantifikuje lingvističke varijable i uvedi ih jednovremeno i ravnopravno sa tehničkim varijablama u proces strateškog odlučivanja o izboru održivog i profitabilnog rešenja.

4.1.2. Interdisciplinarni modeli integracije OIE kao podrška strategiskom, taktičkom i operativnom menadžmentu. Pregledom radova kandidata iz ove oblasti, može se zaključiti da se doprinos kandidata ogleda u stalnom i sistematičnom naglašavanju osnovnih postavki cirkularne ekonomije, što u principu ima veliki značaj u širem smislu, jer omogućava zainteresovanima da na kvalitetan način dođu do informacija o metodološkom pristupu najsavremenijem ekonomskom pristupu menadžmenta resursima. U radu broj 12 kandidat razvija nove interdisciplinarni modeli integracije industrijskih postrojenja u elektro energetski sistem, koji funkcionišu po principima cirkularne ekonomije. Analizirana su četiri scenarija implementacije solarnog industrijskog postrojenja. Metodologija se oslanja na optimizaciju inspirisanu prirodom. Primenjeni su evolucijski višekriterijumski genetski algoritmi. Optimizacija se zasniva na troškovima proizvodnje električne energije, obuhvatajući ne samo troškove tehnologije, već i troškove zaštite životne sredine i troškove obezbeđenja održivog razvoja. Ovi troškovi su uključeni u model i ciljne funkcije su formirane u skladu sa tim. Ciljevi se zasnivaju na maksimizaciji proizvodnje električne energije do nivoa potražnje, minimiziranju ukupnih troškova proizvodnje električne energije i minimiziranju emisije gasova staklene bašte. U radu 7 dr Ivan Stevović interdisciplinarno istražuje različite modele integracije obnovljivih izvora energije, sa ciljem unapređenja energetskog menadžmenta, čime značajno doprinosi ostvarenju usvojenih upravljačkih energetskih strategija do 2050-e godine. Kandidat u radu interdisciplinarnim pristupom analizira, integriše i harmonizuje istraživanja iz oblasti strateškog menadžmenta, upravljanja resursima, cirkularne ekonomije, energetike, ekološkog menadžmenta i održivog razvoja u koherentnu celinu, kroz fizičke i matematičko statističke simulacione i korelace modele. Razvijeni modeli su primenljivi kao generator sistema za podršku odlučivanju u industriji.

4.1.3. Matematičko modelovanje funkcije održivosti u menadžmentu resursima. Da bi cilj održivosti i usklađenosti rešenja integracije OIE sa životnom sredinom bio ostvaren, dr Ivan Stevović je istraživao mogućnosti matematičko-statističkog modelovanja, istovremeno i ravnopravno, svih ulaznih varijabli (tehnoloških, ekonomskih, ekoloških i socioloških) koje su u funkciji cilja, kao što je prikazano u radovima pod rednim brojem 13 i 15. Rezultati ovih istraživanja su unapređeni višekriterijumski matematičko-statistički modeli i metode operacionih istraživanja, prilagođeni na oblast menadžmenta resursima, rad broj 21. U tom smislu, dr Ivan Stevović čini značajan doprinos matematičkom modelovanju funkcije održivosti u oblasti interdisciplinarnog holističkog razvoja

integracije OIE u industriji proizvodnje električne energije sa imperativom prelaska na obnovljive izvore energije.

4.1.4. Korelacioni modeli tehničkih, ekonomskih i ekoloških sistema kao podrška donosiocima odluka. Simulaciju uticaja tehničkih sistema kandidat sprovodi primenom matematičko-statističkog triangulacionog modela, pri čemu u optimizacije, pored ekonomskog, uvodi i sociološki faktor i kriterijume ekološkog menadžmenta i održivog razvoja, što se najbolje ogleda u radu broj 7. Da bi se istražile mogućnosti za primenu solarnog potencijala i utvrdilo da li je moguće veće investiranje u solarne kapacitete, dr Ivan Stevović je u ovom radu razvio kompleksan model, koji je primenio u 28 zemalja Evrope i u Srbiji. Holistički pristup obuhvata korelacioni višedimenzionalni model linearne regresije, ekonomsku analizu i istraživanje socijalne prihvatljivosti povećanja stepena implementacije solarnih industrijskih postrojenja. Prvi pravac istraživanja obuhvata linearu regresionu analizu. Broj i tipovi masivnih ulaznih varijabli su određeni uz kriterijum maksimiziranja nivoa objašnjenja fenomena i stepena značajnosti ulaznih varijabli. Izračunavanjem 255 kombinacija za osam različitih ulaznih varijabli za četiri različita vremenska preseka, kvantifikovana je moguća proizvodnja iz solarnih industrijskih postrojenja u 29 zemalja. Postignuti rezultati su podvrgnuti složenim analizama osetljivosti. Drugi pravac istraživanja obuhvata analizu troškova proizvodnje u odnosu na tržišne cene proizvodnje solarne električne energije. Primjenjen je ekonomski metod ujednačenog troška električne energije. Treći istraživački pravac je u domenu ispitivanja "public hearing" (javnog mnenja). Kreirani su upitnici i dodatna pitanja za intervjuje sa ekspertima iz oblasti. Diskusija o trenutnoj situaciji i pozitivnoj praksi u svetu obuhvata sve poslovne, regulatorne, finansijske i ekonomске aspekte, uključujući procenу rizika ulaganja. U radu broj 8 kandidat holističkim pristupom obuhvata korelacioni višedimenzionalni model linearne regresije, ekonomsku analizu i sociološke analize prihvatljivosti povećanja stepena implementacije industrijskih postrojenja za proizvodnju energije u Srbiji, a prema razvijenom korelacionom modelu upravljačkih struktura Evrope. Cilj istraživanja dr Ivan Stevović realizuje razvojem triangulacionog modela i prirodnom inspirisanog optimizacionog modela multidimenzionalnih genetskih algoritama, najpre u društveno ekonomsko okruženje, a zatim ponovo holistički u okviru realnog elektro energetskog sistema Srbije.

4.2. Citiranost radova dr Ivana Stevovića

Na dan 20.07.2023. dr Ivan Stevović, prema Research Gate ima 146 citata i h index = 7.

4.3. Parametri kvaliteta časopisa

Najveći impakt faktor časopisa u kojima su objavljeni radovi kandidata dr Ivana Stevovića je iz časopisa Energy:

IF 9, CiteScore 14.9.

4.4. Stepen samostalnosti i stepen učešća u realizaciji radova u naučnim centrima u zemlji i inostranstvu

Dr Ivan Stevović je učestvovao u tri ciklusa samostalnog istraživanja na Tehničkom univerzitetu u Delftu, u trajanju od po 30 dana, u okviru projekta Veštačka inteligencija i prirodnom inspirisane optimizacije u funkciji održivog upravljanja vodama ("Artificial Intelligence and Nature Inspired Optimization in the Function of Sustainable Water Management"). Vezano sa rezultatima tog istraživanja i iskustvima sa Tehničkog univerziteta u Delftu, održao je predavanje I radionicu 24. 01. 2023. godine na Mašinskom fakultetu u Beogradu.
